DETAILED ACTION

The preliminary amendment canceled claims 1-14 and 24-25 and added claims 30-36. Claims 15-23 and 26-26 are pending in the application and the status of the application is as follows:

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 15-23, and 26, drawn to method of treating convulsions in a mammal in need thereof, classified in class 424, subclass 489.
 - II. Claims 27-36 are, drawn to method of treating epilepsy in a mammal in need thereof, classified in class 424, subclass 489.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are drawn to different methods of uses. Convulsion is an involuntary contraction of the muscles producing contortion of the body and limbs whereas epilepsy is any one of group disorders of brain function characterized by recurrent attacks that have a sudden onset. Both the method of uses is unrelated and different modes of operation and different effects.
3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Art Unit: 1615

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
